Express Technologies Expands Corporate Headquarters

www.xpresstech.com

Cross-platform R&D and Quality Labs and Multimedia Education Center Benefits Customers

WEXFORD, PA – January 31, 2004 – Express Technologies announced a major expansion to its headquarters operation near Pittsburgh, PA.

The expansion offers multimedia training facilities and a cross-platform Quality Assurance and R&D lab. The expansion accommodates Express Technologies growing staff and allow for further rapid planned growth. The new state-of-the-art expansion ensures that the company will remain a world leader in technology for logistics, transportation and distribution.

"This is an investment in our clients and in the future," noted Brandon Barnhart, Director of Transportation Solutions. "Our cross-platform capabilities enable us to leverage the LoadTech system development across any customer's disparate topology. This provides for rapid development and drives down costs for clients."

Heidi Evans, Director of Implementations and Training, adds, "We usually provide training at our customers offices. But some customers prefer to travel to us for training. The multimedia training center enhances the customer experience. It can make training more productive and leverages costs and time."

The expanded facility is located at 117 VIP Drive, Wexford, PA 15090. Wexford is a suburb of Pittsburgh, with convenient access to airport and interstate highways. Because the firm has a worldwide clientele, the location facilitates collaboration.
